

Explain ,How to access the report in Power BI service from power point?

Ans: These are the steps to access the report Power BI service from power point:

1. Open PowerPoint and go to the slide where you want to embed the report.
2. Click on Insert → Get Add-ins.
3. Search for “Power BI” and install the Power BI add-in.
4. Once added, a pane will appear asking for a Power BI report link.
5. Go to Power BI Service (<https://app.powerbi.com>), open the report you want to embed.
6. Click on File → Embed Report → PowerPoint.
7. Copy the embed link and paste it into the Power BI pane in PowerPoint.
8. Sign in with your Microsoft account if prompted.
9. The report will now appear live in your slide—fully interactive and up-to-date.
